NORTHWIND LOGISTICS | HUMAN RESOURCES AND INFORMATION SECURITY

AI Tools Acceptable Use Policy

Policy NW-IS-014 | Effective: August 1, 2026 | Applies to: All employees and contractors with Microsoft 365 access

1. Purpose

Northwind provides Microsoft 365 Copilot to help employees work faster and with fewer errors. This policy explains what you may and may not put into Copilot and how to use its output responsibly.

2. Approved tools

Microsoft 365 Copilot inside Word, Excel, PowerPoint, Outlook, Teams, and OneNote on your Northwind account is approved for business use. Personal AI accounts (ChatGPT, Gemini, Claude, or others) may not be used with company data.

3. Data you may use with Copilot

- Your own drafts, notes, and work product
- Internal reports, presentations, and spreadsheets already shared with you through Northwind systems
- Public information: press releases, published rates, our website
- Meeting transcripts from Teams meetings you attended

4. Data you may NOT enter into Copilot or any AI tool

- Customer personal data: names paired with home addresses, phone numbers, or payment details
- Driver personal records, medical information, or drug test results
- Payroll, salary, and compensation data
- Unreleased financial results or merger and acquisition discussions
- Passwords, access keys, or system credentials
- Anything marked Confidential - Restricted

5. Using Copilot output

- You are responsible for anything you send. Copilot drafts; you decide.
- Verify every number, date, and name against the source document before sharing.
- Do not present AI-generated content to customers or regulators without human review.
- Label AI-assisted documents with the standard footer when sending externally.

6. Questions and reporting

Contact the IT Service Desk (ext. 4400) or your HR Business Partner. Suspected data exposure must be reported within 24 hours to security@northwindlogistics.example.

Fictional policy created for a training portfolio project. Not a real company or policy.
